The MHTA today announced that from September 1 2007, all toll roads in MH will start charging all vehicals that bass through its gates. This is to ensure that the MHTA has the funds to maintain and upgrade the road network in MH. When asked about its sister company RailCorp, Managing Director Julian Parkes had this to say "We currently have no information to give to the media about RailCorps status. However I am pleased to say that work is currently being undertaken to bring it up to speed and back into full operation by the new year"
